

Image features the Grill Cabinet and Propane Tank, each sold separately.

## KEY FEATURES:

### Propane Tank Storage:

- Built-in compartment specifically designed to securely hold a propane tank.
- Proper ventilation slots to ensure safety and compliance with Integrated ventilation for safety.

### Durable Construction:

- Made from 100% High-Density Polyethylene (HDPE) to withstand outdoor elements.

### Integrated Access:

- Easy access door and a propane pull out for convenient propane tank storage.

### Versatile Design:

- Available in an 18" cabinet in depths of 24, 27 and 30" depth to fit standard propane tanks (typically 20 pounds).
- Seamlessly integrates into any Endura outdoor kitchen designs.

### Optional Features:

- Soft-close glide option.
