

PREMIUM QUALITY **INVISIA-EDGE™**

We use only Invisia-edge™ banding, a premium feature associated with quality and craftsmanship.

INVISIA-EDGE™ OFFERS:

- **Invisible Joints**

Invisia-edge™ banding creates nearly invisible joints between the edge band and the cabinet surface. This results in a smooth, cohesive appearance without visible seams.

- **Outstanding Durability**

Invisia-edge™ banding enhances the durability of the cabinet. The seamless integration of the Invisia-edge™ band helps prevent moisture, dirt, and other contaminants from infiltrating the joints, contributing to the longevity of the cabinet.

- **Environmentally Friendliness**

Our Invisia-edge™ banding materials are environmentally friendly, contributing to sustainable and eco-conscious design practices.

A GAME CHANGER IN CABINETS **INVISIA-LOCK™**

Invisia-lock™ offers a winning combination of strength, aesthetics, longevity, functionality, and peace of mind. It's a wise choice for builders who prioritize quality and value in the homes they build. Here is why:

- **Strength and Durability**

Traditional joinery methods like screws or nails can weaken over time due to wear and tear, leading to loosening joints and potentially compromised structural integrity. Invisia-lock™, with its high gripping strength, creates a joint that is incredibly robust and durable. This means your cabinets will remain sturdy and reliable for years to come, even with daily use.

- **Aesthetic Appeal**

One of the primary advantages of Invisia-lock™ is its ability to create seamless joints without any visible connectors, nails, or screws. This ensures a clean and polished look for our cabinetry, enhancing the overall aesthetic appeal of any kitchen or living space.

- **Enhanced Functionality**

Invisia-lock's™ self-clamping system ensures that your cabinet joints are securely locked in place, minimizing the risk of misalignment or shifting. This not only contributes to the structural integrity of your cabinets but also enhances their functionality. You can confidently store heavy items or make use of pull-out drawers without concerns about the stability of your cabinetry.
